The image is a screenshot of a Zoom meeting. The main window displays the PLAXIS 3D software interface. The software shows a 3D model of a building structure, which is a blue, angular, box-like shape with some green vertical elements. The model is set within a 3D coordinate system with X, Y, and Z axes. The software interface includes a menu bar at the top with options like File, Edit, View, Script, Construct, Phase, Options, Export, and Help. Below the menu bar is a toolbar with various icons for file operations, editing, and viewing. On the left side, there is a 'Model explorer' panel showing a tree view of the model's components, including 'Initial phase (InitialPhase)', 'Construction phase (ConstructPhase)', 'Loading (Phase_1)', 'Loading of Live Phase_2', and 'Loading of River (Phase_3)'. Below that is a 'Section explorer (Phase_1)' panel. At the bottom of the software window, there is a 'Command line' panel showing a list of commands and their results, such as 'RTTO_1 = Model.CurrentPhase Phase_1' and 'RTTO_2 = Model.CurrentPhase Phase_2'. On the right side of the Zoom window, there is a video inset of a woman wearing a brown hijab, identified as Desti Santi. Behind her is a graphic for the 'NGCC PLAXIS TRAINING SERIES' with the text 'PLAXIS 3D TRAINING' and a background image of a city skyline at night. The Zoom meeting controls are visible at the bottom of the screen, including buttons for 'Unmute', 'Start Video', 'Participants' (46), 'Chat', 'Share Screen', 'Record', 'Reactions', and a 'Leave' button.
